

# JERZY MAĆZYŃSKI

***Polish saxophone prodigy!***

- Jeremy Allen, *The Quietus*

***The brutal extended notes and scales of Jerzy Maćzyński acted as a impassioned, pained response to the minimalism, which provided an outlet for a rapturous applause.***

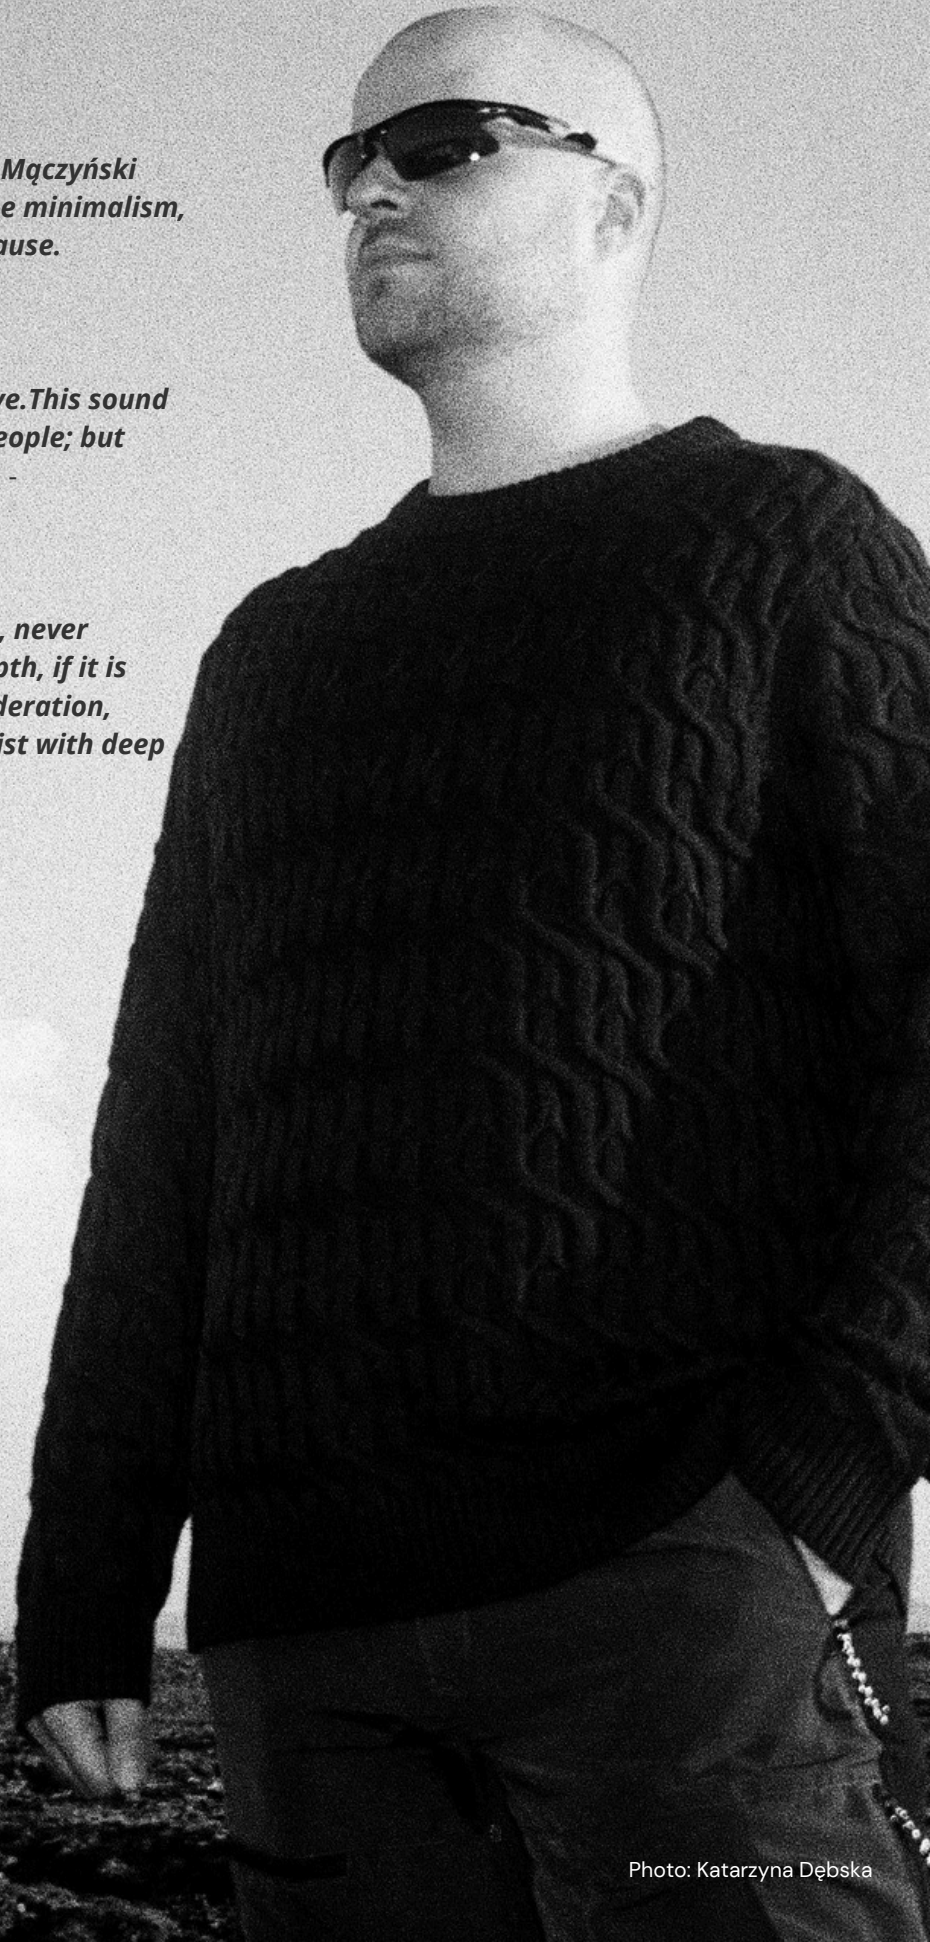

- Bruno Bridger, *Epigram UK*

***The variety of sounds and imagery is impressive. This sound feels as though it is generated by a horde of people; but somehow Jerzy is managing this all by himself, -***

- Mr Olivetti, *Freq magazine*

***It is extremely enjoyable, complex, considered, never throwaway, there's depth here, considered depth, if it is improvisation then it comes with lots of consideration, warmth, with precise care, a musician and artist with deep understanding of his craft***

New solo album  
Jerzy Mączyński *DO 555ps*

"Polish saxophonist, producer and composer Jerzy Mączyński fuses utopian electronics and organic improvisation on sci-fi jazz odyssey, *DO 555ps*.

Building on his 2023 collaboration with Jamal Moss aka Hieroglyphic Being, *DO 555ps* is Mączyński's first self-produced album – a tour de force of spacious, galactic sound design that leans into drone, minimalism and the rich history of sci-fi soundtracks for a 10-track suite of astral proportions.

Mączyński's sound is both maximalist and restrained, sensitive to detail and atmosphere, defying categorisation and swirling in an orbit of its own making. Set to be released on Eivind Vullum's Vibrasjon label in Norway, *DO 555ps* follows the 2023's *TUNE IN*, made under Mączyński and Hieroglyphic Being's Universal Harmonies & Frequencies moniker. Described by *The Quietus* as one of the most interesting records of the year ("as bold as it is massive"), *TUNE IN* laid the foundations for Mączyński to strike out alone on *DO 555PS*, inspired by Moss's skewed production and arrangements to striking and unique effect."
